

Dano Airline · Customer Satisfaction Report

Executive Summary

Data Source: Dano Airline Customer Satisfaction Survey Report Date: June 2026

Sample Size: 130,000 Passengers

Executive Summary

This report presents a comprehensive analysis of 130,000 customer satisfaction responses collected from Dano Airline passengers across all service classes and travel segments. The dashboard ecosystem comprises four interconnected views: Satisfaction Overview, Service Ratings, Demographic Analysis, and Severity and Impact, providing a 360 degree perspective on customer experience across the airline's network.

The overall satisfaction index of **3.28** indicates a moderate level of customer satisfaction across all service categories. However, the significant disparity between satisfied (56K) and dissatisfied (73K) passengers underscores substantial opportunities for service improvement, particularly in the Economy cabin, digital touchpoints, and on-time performance.

2.73

Lowest Rated: WiFi

Key Insights

Economy passengers have the highest dissatisfaction. Economy class shows only 50% satisfaction, compared to 71% for Economy Plus and 67% for Business.

Business travelers report lower satisfaction (41%) than personal travelers (50%). This suggests higher expectations for efficiency and premium service.

Delayed flights are associated with lower satisfaction (42% satisfied) compared to on-time flights (52%). Punctuality remains a critical driver.

WiFi (2.73) and **Online Booking (2.76)** received the lowest service ratings. These are key areas for operational improvement.

SECTION 1 • SATISFACTION OVERVIEW

 Satisfaction by travel type

💡 Business travelers show lower satisfaction (41%) than personal travelers (50%). This may indicate higher expectations around efficiency, punctuality, and premium service.

 By customer type

💡 Returning customers (74%) and business customers (89%) show strong satisfaction. Loyalty programs and business-class services appear to be effective.

 Satisfaction by flight status

💡 On-time flights have a 52% satisfaction rate versus 42% for delayed flights. Punctuality remains a critical driver of customer satisfaction.

⚠️ **Critical Finding:** Delayed flights reduce satisfaction by 10 percentage points, representing a significant impact on the overall customer experience. This suggests that punctuality improvements could yield substantial gains in satisfaction.

★ Service ratings (average)

● 3.44 to 3.64 (Strong) ● 3.20 to 3.38 (Moderate) ● 2.73 to 3.06 (Needs improvement) ⓘ 1 to 5 scale

💡 **In-flight Service (3.64)** and **Baggage Handling (3.63)** are the top-rated services. **WiFi (2.73)**, **Online Booking (2.76)**, and **Gate Location (2.98)** are the lowest-rated, representing key areas for improvement.

⚠️ **Critical Finding:** Digital touchpoints (WiFi, Online Booking, Online Boarding) consistently receive the lowest ratings, indicating a systemic gap in the airline's digital customer experience. This suggests the need for a comprehensive digital transformation strategy.

🛩️ Satisfaction by class

● Satisfied ● Dissatisfied

💡 **Economy passengers have the highest dissatisfaction** with only 50% satisfied, compared to 71% for Economy Plus and 67% for Business. Premium cabin investments are paying off.

⚠️ **Critical Finding:** Economy passengers represent the largest dissatisfied cohort (50% dissatisfaction). With 11K passengers in this segment, improving the Economy experience could significantly boost overall satisfaction scores.

 Age group · satisfaction breakdown

Distribution of satisfied versus dissatisfied passengers across age brackets, revealing distinct satisfaction patterns among different demographic segments.

Age group	Dissatisfied	Satisfied	Distribution	Total	Satisfaction Rate
36 to 45	14.7K	14.7K		29.4K	50%
46 to 55	11.1K	15.2K		26.3K	58%
26 to 35	14.7K	14.7K		29.4K	50%
18 to 25	12.0K	6.4K		18.4K	35%
56 to 65	8.7K	8.2K		16.9K	49%
Under 18	1.6K	1.6K		3.2K	50%
66 and older	0.9K	4.1K		5.0K	82%

 Key age insights:

- **66 and older** passengers are the most satisfied (82% satisfaction), suggesting excellent service for seniors.
- **18 to 25** have the lowest satisfaction (35%), a critical segment that may need targeted engagement such as digital experience and social media.
- **36 to 45** and **26 to 35** show an even split (50/50), indicating neutral sentiment.
- **46 to 55** and **56 to 65** lean slightly positive, with 58% and 49% satisfaction respectively.
- Younger travelers (18 to 25) and middle-aged groups (36 to 45) represent the largest dissatisfied cohorts, actionable focus areas.

 **Critical Finding:** The 18 to 25 age group has the lowest satisfaction at 35%, representing 18.4K passengers. This demographic is highly influential for future brand loyalty and requires targeted engagement through digital channels and youth-friendly perks.

SECTION 3 · INTEGRATED FINDINGS AND STRATEGIC RECOMMENDATIONS

 Summary of Key Insights

Dimension	Key Finding
Class	Economy passengers have the highest dissatisfaction (50% satisfied); Economy Plus leads at 71%.
Travel Type	Business travelers (41% satisfied) are less satisfied than personal travelers (50%).
Flight Status	On-time flights (52% satisfied) outperform delayed flights (42%) by 10 percentage points.
Service	In-flight Service (3.64) and Baggage Handling (3.63) are top-rated; WiFi (2.73) and Online Booking (2.76) are lowest-rated.

Customer Type	Returning customers (74%) and business customers (89%) show strong satisfaction.

✔ Recommendations

Based on the integrated findings above, the following strategic actions are recommended to improve overall customer satisfaction.

Insight	Recommended Action	Priority
Economy passengers have the highest dissatisfaction (50% satisfied)	Review Economy cabin experience: consider seat comfort upgrades, meal improvements, and dedicated service staff training. Run pilot program on high-volume routes.	High
Business travelers less satisfied (41%) than personal travelers	Conduct targeted survey for business travelers. Improve efficiency with priority boarding, express check-in, and lounge access. Consider corporate loyalty perks.	High
Delayed flights lead to lower satisfaction (42% vs 52%)	Invest in real-time communication systems. Implement proactive rebooking and compensation policies. Optimize ground operations to reduce delays.	High
WiFi (2.73) and Online Booking (2.76) lowest rated	Upgrade WiFi infrastructure for bandwidth and coverage. Simplify online booking flow with clear UI/UX improvements. Communicate upgrades to customers.	Medium
18 to 25 age group lowest satisfaction (35%)	Engage via social media and digital channels. Offer youth-friendly perks including discounts and flexible booking. Improve digital experience, app, and mobile check-in.	Medium
Gate Location (2.98) and Online Booking (2.76) below 3.0	Review airport gate assignment process. Improve wayfinding with signage and app notifications. Simplify online booking flow and reduce friction points.	Low

🚩 Conclusion

The Dano Airline Customer Satisfaction Dashboard provides an invaluable, data-driven foundation for understanding and addressing service quality challenges across the airline's network. The analysis reveals a complex landscape where satisfaction, service ratings, and demographic preferences vary significantly by class, travel type, and age group.

The data clearly indicates that a multi-pronged strategy is essential:

- **Addressing the Economy experience** through service improvements and cabin enhancements to reduce dissatisfaction among the largest passenger segment.
- **Improving digital touchpoints** (WiFi, Online Booking, Online Boarding) through infrastructure investment and UX optimization.
- **Enhancing punctuality** through operational improvements and proactive communication to mitigate the impact of delays.
- **Targeting the 18 to 25 demographic** through digital engagement and youth-friendly offerings to build long-term loyalty.

By leveraging these insights, Dano Airline's leadership, operational teams, and customer experience professionals can work collaboratively to deliver a superior travel experience for all passengers, from Economy to Business, from young travelers to seniors.
